

Activations & Events Programs

Melbourne Connect Co-working members will gain access to a diverse range of informative and engaging events that are designed to inspire and inform. Melbourne Connect's innovative program offers a plethora of fresh ideas and inspiring insights from various industries and topics. Members will have the opportunity to attend thought-provoking research seminars, dynamic debates, and engaging graduate exhibitions, as well as participate in city-wide innovation festivals and networking events that enable members to connect with the wider Melbourne Connect community.

Talent Acquisition

Melbourne Connect Co-working members can apply to engage with some of Australia's most talented PhD and Research Masters candidates through short-term research internships, with a minimum duration of 60 days.

Work with the University

Melbourne Connect Co-working members will have access to a range of online resources that allow expressions of interest in collaborating with The University of Melbourne's world-renowned experts, and be in close proximity to the latest research, technologies, and infrastructure. Additionally, the real-world experience, knowledge, and resources of members could help to shape the direction of future research.

Target Sectors

Adjacent to The University of Melbourne's Parkville campus, the Melbourne Connect innovation precinct provides a thriving hub for start-ups, scale-ups, and listed companies that are committed to shaping the future of digital technology. Melbourne Connect is at the geographic centre of the Melbourne Biomedical Precinct, one of the top three biomedical precincts in the world. This puts members in a prime position to tap into the expertise of leading researchers and innovators, and to leverage the wealth of resources and opportunities that this vibrant ecosystem has to offer."

Community Info Portal

Melbourne Connect Co-working members will gain access to the Melbourne Connect Info Portal, a digital platform designed to provide the entire Melbourne Connect community with information and resources, access to self-managed tasks and precinct-related announcements as well as opportunities for collaboration with the precinct community.
