

Activations and Events

Tap into ideas and insights from across industries and disciplines through Melbourne Connect's activations program.

From thought-provoking seminars and dynamic debates to graduate exhibitions and networking events, there are countless opportunities to connect with the broader Melbourne Connect community.

Talent Acquisition

Apply to host short-term research internships, engaging some of Australia's brightest PhD and Research Masters candidates for a minimum of 60 days.

Collaborate with the University

Gain access to a range of online resources to express interest in collaborating with The University of Melbourne's world-renowned experts, and be in close proximity to cutting-edge research, technologies, and infrastructure. In turn, members' real-world experience, insights, and resources can help shape the direction of future research.

Target Sectors

Adjacent to The University of Melbourne's Parkville campus, Melbourne Connect is a thriving hub for start-ups, scale-ups, and established companies driving the future of digital technology. Located within the Melbourne Biomedical Precinct, one of the top three biomedical hubs globally, Melbourne Connect offers the opportunity to tap into the expertise to world-leading researchers, cutting-edge innovation, and a wealth of collaborative opportunities within a vibrant ecosystem.

Community Info Portal

The Melbourne Connect Info Portal is a digital platform that provides the broader precinct community with access to information, resources, self-managed tasks, precinct announcements, and opportunities for collaboration.
